Instructions for filling the sheet:

- Don't fold the sheet. Use only ball pen. Read the given paragraph carefully.
- Below the paragraph, you will find questions with blanks.
- Use the Answer Bank provided to fill in the blanks with the most appropriate word(s).
- Each word/phrase from the Answer Bank can be used only once, unless stated otherwise.
- Write only the correct word(s) in the blank space provided.
- Spelling errors may result in the loss of marks.
- Do not use words that are not in the Answer Bank.
- **Only use *UPPER CASE CAPITAL LETTER ALPHABETS* in the boxes.**

Paragraph: The movement of plants due to growth is an example of thigmotropism. This type of movement occurs when plants bend or curve in response to physical contact with their environment, such as light or surrounding objects. For instance, the stems of climbing plants will _____ towards a support to eventually wrap around it and grow upwards. Similarly, some plant leaves will _____ towards the direction of sunlight to maximize their exposure.

Answer bank: THIGMOTROPISM, SUPPORT, GROW, DIRECTION, MAXIMIZE, EXPOSURE, WRAP, BEND

Q1. Stems of climbing plants will _ towards a support to eventually wrap around it and grow upwards.

Q2. Some plant leaves will _ towards the direction of sunlight to maximize their exposure.

Q3. The movement of plants due to growth is an example of _.

Q4. This type of movement occurs when plants _ in response to physical contact with their environment.

Q5. Plants bend or curve in response to physical contact with their environment, such as light or surrounding _.

Q6. Some leaves will grow upwards as they _ towards a support.

Q7. Climbing plants will wrap around a _ and eventually grow upwards.

Q8. Leaves maximize their exposure by _ towards the direction of sunlight.
